# About Fullerton

Fullerton Tool Company is a third-generation, family owned business that specializes in the design and production of solid carbide cutting tools for a wide variety of industries. Founded in 1942, the company manufactures high quality end mills, drills, reamers, burrs, saws, keyseat cutters and PCD tooling. Fullerton is an ISO 9001:2015 certified company.

We combine our highly skilled operators with our top-of-the-line production machinery to design and manufacture special cutting tools for your most demanding applications. Our F.A.S.T. team will work closely with your company to help you obtain your goal of optimal process parameter and become lean, efficient and profitable manufacturers.

## FULLERTON REGRIND PROGRAM

Fullerton Tool provides OEM Quality Regrinds, Retips and Reworks, striving to provide as close to the new tool as possible at a competitive price and delivery.

We utilize the same high quality equipment, inspection procedures and operators that we provide on your new tools.
